Hello! I am Vanessa, a Front-End developer, I stand out for my ability to combine creativity and efficiency in each project. My ability to be decisive sets me apart in the field of web development.

My initial experience is based on Drupal and Angular and React. I am passionate about the component-based approach. and that is why I have created several projects using these two Frameworks, which you can see in my portfolio at [www.dev-vanessa-rubio.com](http://www.dev-vanessa-rubio.com)

I am looking for a company, regardless of size, that values team collaboration and offers an environment where I can continue to develop professionally and stability. My main interest is to dedicate myself to the Front-End with React or Angular, although I am open to exploring other Frameworks or languages.

---

## Experience

2023 OCTOBER – 2024 APRIL

**Front end Developer/TicSmart S.L**

I learned to use **Drupal** from scratch and was able to progress very quickly because I was motivated to learn a new technology. Besides expanding my knowledge and logic, I was able to create custom templates in Twig with **PHP** for Layout Builder, as well as with WebForm and SimpleNews, which are almost essential modules for Drupal. I also learned to use other modules, manage, and create both themes and content. I also learned to use **Composer** and **Drush**. After performing the assigned activities, I moved the changes to testing with **PostgreSQL**, after which I had to do testing with **Cypress** and finally deployed to Development.

In addition to using **Drupal**, I also used **Angular** to make some fixes and implement components with **TypeScript**.

---

## Education

**Web Application Development Technical/ IES MACIÀ ABELA**

**Technical in Administrative Management/ IES SANTIAGO GRISOLIA**

**Compulsory Secondary Education/ IES AZORÍN**

---

## Certifications and Courses

**Angular V.16 Certificate - UDEMY**

| Components | Directives | Services | Routes | Reactive Forms | Observables | Guards | API Rest | Material UI |

React V.18 Certificate - UDEMY

| Functional Components | Hooks & Custom Hooks | Context API | Redux | Routes | JSX | Events and State Management | Material UI |

Business English Management Certificate - INEM

Web Page and Multimedia Development Certificate - INEM

Microsoft 365 Package Certificate - INEM

---

## HardSkills

Frameworks and Libraries:

| Angula v.16 | React v.18 | Bootstrap | Tailwind | Material UI |

Content Management Systems (CMS):

| Drupal v.7 to v.10 |

Programming, Markup and Styling Languages:

| JavaScript | TypeScript | PHP | HTML | CSS |

Development Tools and Technologies:

| Git | Github | Docker |

Databases and Cloud Services:

| MySQL | Firebase |

Testing Tools:

| Cypress | Jest |

---

## SoftSkills

Problem solver • Time management skills • Teamwork • Creative • Responsible • Dedicated
