Hello! My name is Vanessa, I'm a Full Stack Developer, I stand out for my ability to combine creativity and efficiency in each project. My ability to be decisive sets me apart in the field of web development.

My initial experience is based on Drupal, Angular and React. I am looking for a company, regardless of size, that values team collaboration and offers an environment where I can continue to develop professionally and stability. I am open to exploring other Frameworks or languages.

Experience

2023 APRIL – 2024 APRIL
Front end Developer | TicSmart S.L

Responsibilities:

- Front-end:
    - Developed user interfaces using **Angular** and **TypeScript**.
    - Fixed bugs and created reusable components in **Angular**.
    - Worked on the front-end part of **Drupal**, including theme and style customization.
- Back-end:
    - Modified and customized templates using Twig in **Drupal's** Layout Builder.
    - Configured and managed web forms with Webform.
    - Implemented email functionalities with Simplenews.
    - Developed and maintained custom modules and functionalities using **PHP** in Drupal.
- Content Management:
    - Administered and managed content in **Drupal**.
    - Configured and used content management tools in **Drupal**.
- Dependency Management and Tools:
    - Used Composer to manage **PHP** dependencies.
    - Utilized Drush for **Drupal** command-line administration.
- Deployment and Testing:
    - Deployed applications to test environments for automated testing with **Cypress**.
    - Deployed to development environments using **PostgreSQL** as the database.
- Collaboration and Continuous Improvement:
    - Collaborated with multidisciplinary teams to ensure application quality and functionality.
    - Participated in code reviews and performance optimization.
- Achievements:
    - Helped colleagues by explaining Drupal modules and functionalities.
    - Assisted the team in staying ahead of the sprint schedule.
- Highlighted Projects:
    - <u>Ayuntamiento de Palencia</u> – Worked on front-end improvements, enhancing the user interface and ensuring a better user experience.
    - <u>Prodetur</u> – Developed and refined front-end elements, improving design and usability.

2024 OCTOBER - PRESENT
Full Stack Developer | Telefónica

Responsibilities:

- Front-end:
    - Customized Drupal templates using Twig and HTML5.
    - Designed and styled responsive interfaces using CSS (LESS/SASS).
    - Developed interactive components using JavaScript (jQuery and Vanilla JS).
    - Created and customized Drupal themes.

- o Utilized libraries and frameworks such as Bootstrap

- **Back-end : (Modules & APIs):**
  - o Developed custom modules in Drupal using PHP (Symfony).
  - o Implemented Drupal Hooks & Plugins to extend functionalities without modifying the core.
  - o Created and managed forms and entities using Form API & Entity API.
  - o Integrated RESTful, GraphQL, and SOAP APIs to connect Drupal with external systems.
  - o Developed Custom Services to define reusable services within the Drupal ecosystem.
- **Content Management & Configuration:**
  - o Managed and administered content in Drupal.
  - o Created and configured content types, taxonomies, and views.
  - o Implemented and customized Webform and content workflow management.
- **DevOps, Tools & Testing:**
  - o Managed dependencies with Composer.
  - o Automated tasks and site administration with Drush.
  - o Used Git (GitHub, GitLab,) for version control and deployments.
  - o Configured and managed local development environments with Docker.
  - o Conducted functional and integration testing using TestLink.
  - o Optimized database queries and performance in MySQL.
- **Additional Experience:**
  - o Configured and maintained Drupal multisite to manage multiple websites from a single installation.
- **Highlighted Projects:**
  - o <u>Real Federación Española de Atletismo</u> – Developed new functionalities in Drupal, enhancing user experience and optimizing site performance.
  - o <u>UGT</u> – Updated the Drupal core and modules to improve security and system stability, along with minor UI improvements.
  - o <u>Ayuntamiento de Sanlúcar de Barrameda</u> – Maintained and updated the Drupal system, ensuring compatibility with new versions and enhancing some interface aspects.
  - o <u>Würth Museum</u> – Implemented new functionalities in existing modules and improved visual aspects using LESS to optimize the user experience.
  - o <u>Junta de Comunidades de Castilla-La Mancha</u> – Developed and integrated systems using SOAP, created custom forms, and implemented LDAP authentication for user management.

Education

Advanced Technician in Web Application Development - IES MACIÀ ABELA
Technical in Administrative Management - IES SANTIAGO GRISOLIA

Lenguages

| Spanish – Native | Catalán - Expert | English – Intermediate |

Certifications and Courses

Angular V.16 Certificate - UDEMY

| Components | Directives | Services | Routes | Reactive Forms | RxJS | NgRx | API Rest | Pipes | Testing | l18n | Material UI | CLI |

React V.18 Certificate - UDEMY

| Functional Components | Hooks & Custom Hooks | Context API | Redux | Routes | JSX | Events and State Management | Material UI |

Web Page and Multimedia Development Certificate - INEM

| HTML | CSS | JavaScript | Dreamwever | Photoshop |

Microsoft 365 Package Certificate - INEM

| Word | Excel | Power Point | Access |

Business English Management Certificate - INEM

HardSkills

Frameworks and Libraries:
| Angular v.16 | React v.18 | Ionic | Symfony | Bootstrap | Tailwind | Material UI |

Content Management Systems (CMS):
| Drupal v.7 to v.10 |

Programming, Markup and Styling Languages:
| JavaScript | TypeScript | PHP | HTML | CSS | LESS

Development Tools and Technologies:
| Git | Github | GitLab | Docker |

Databases and Cloud Services:
| MySQL | Firebase | PostgresSQL |

Testing Tools:
| Cypress | Jest | TestLink |

SoftSkills

Problem solver | Autodidact | Time management skills | Teamwork | Creative | Responsible | Dedicated |
Fast Learner | Adaptability | Active listening
